

## Manual [www.RadePopović.com](http://www.RadePopović.com)

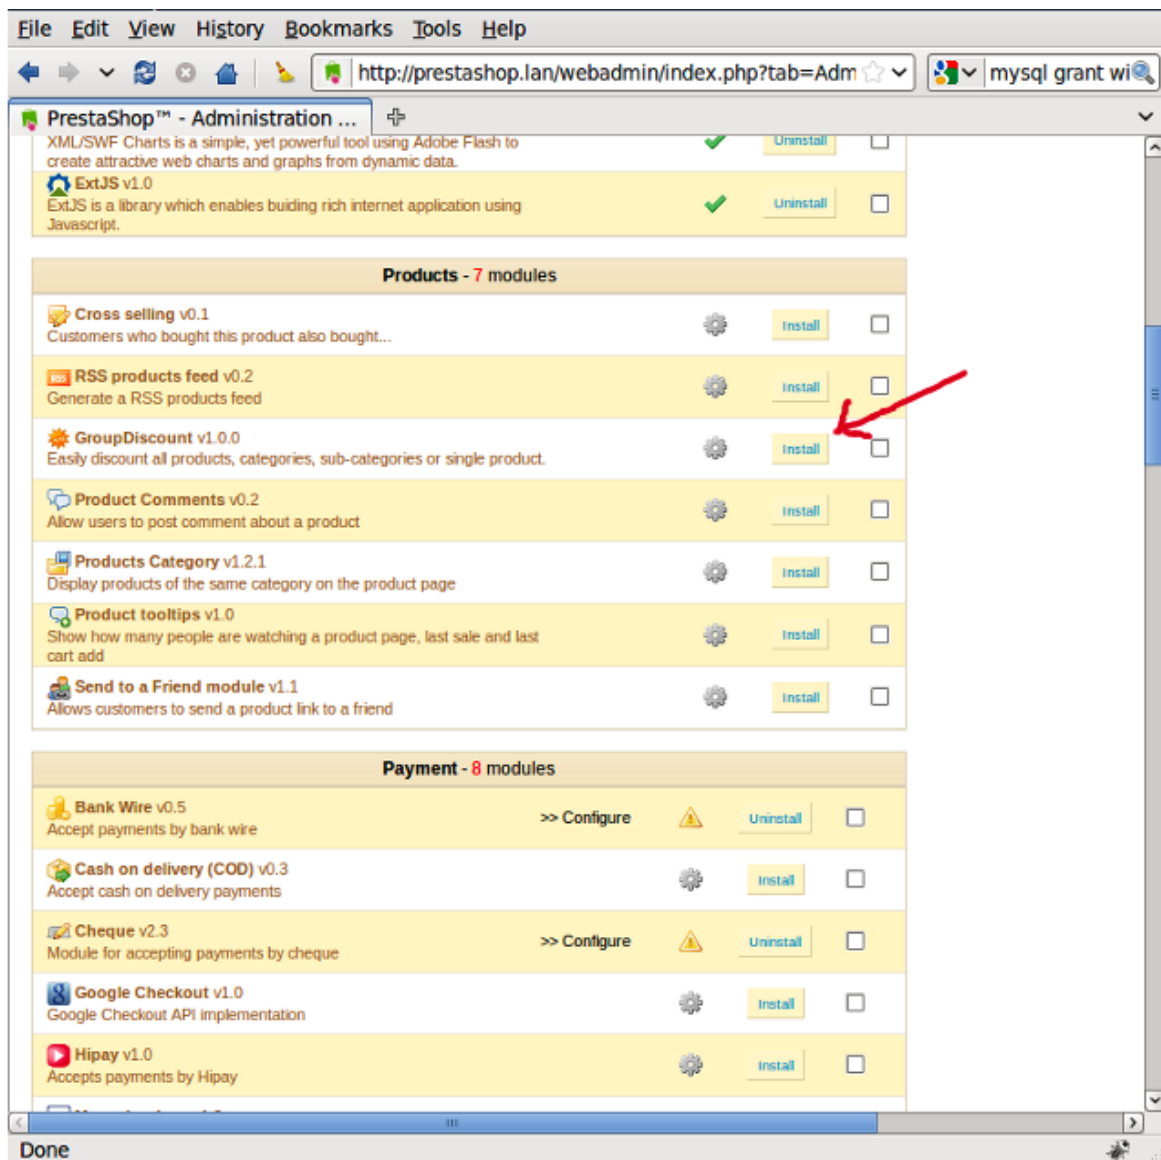

### Download

<http://prestashop.radepopovic.com/download.php>

### Install

To install your GroupDiscount module just follow the steps:

1. Save the attachment (groupdiscount.zip) file to [modules] folder of your prestashop web site. If for example your prestashop folder is located at /home/prestashop, then you should save your attachment to /home/prestashop/modules/groupdiscount.zip
2. Unzip groupdiscount.zip file: unzip groupdiscount.zip and the new folder groupdiscount will be created

3. Go to BackEnd part of you prestashop website
4. Scroll to GroupDiscount module and click on Install button
5. Now the module is installed and ready for use. To get more information regarding the module click on Configure link

## How to use it

Click on Catalog->GroupDiscount.

The usage of the GroupDiscount module is quite simple. You can set discount percentage of group of products or single product, and you can also set the real price for single product. When you set the discount for the group, all the products inside the group will be under the same discount. Same applies for all sub-groups, if there are any. If you want the sub-group or single product to have some other discount value, just insert the new value into the regarding textbox. If you want a sub-group or a single product to not have a discount at all, just write 0 (zero) into the regarding textbox. Here is one example:

The screenshot shows the PrestaShop administration interface for the GroupDiscount module. The interface includes a top navigation bar with menus like Catalog, Customers, Orders, Payment, Shipping, Stats, Modules, Employees, Preferences, and Tools. Below this is a sub-navigation bar with GroupDiscount, Tracking, Manufacturers, Suppliers, Attributes and groups, Features, Image mapping, Tags, and Attachments. The main content area is titled 'Group Discount' and shows a list of product groups and individual products with their respective discount settings. Red arrows and numbers 1 through 7 are used to highlight specific features and fields:

- 1. Points to the 'From date' and 'To date' fields for the 'Accessories' group.
- 2. Points to the 'Discount %' field for the 'Accessories' group.
- 3. Points to the 'Display "on sale" icon' checkbox for the 'Accessories' group.
- 4. Points to the 'Discount %' field for the 'Shure SE210 Sound-Isolating Earphones for iPod and iPhone' product.
- 5. Points to the 'Discount Amount' field for the 'iPod Nano' product.
- 6. Points to the 'Price' field for the 'MacBook Air' product.
- 7. Points to the 'Save discounts' button at the bottom left.

ID	Categories & Products	Price	From date	To date	Discount Amount	Discount %	Display "on sale" icon
1	Home				-		<input type="checkbox"/>
3	Accessories		1 Jul 2010	1 Aug 2010	-	5 %	<input checked="" type="checkbox"/>

-7	iPod touch	241.6					<input type="checkbox"/>
4	Laptops				-		<input type="checkbox"/>
-5	MacBook Air	1,004.2					<input type="checkbox"/>
-6	MacBook	1,170.6					<input type="checkbox"/>

Save discounts

Powered by PrestaShop™ [ forum & contact ] - Version 1.3.1.1 - 0.062s

1. For every group or single product you can specify duration of the discount (start and end dates)
2. Here is the example of percentage discount, in this example all products under Accessories group would have 5% discount
3. If you want that you products have ON SALE icon, click on the checkbox
4. In this example, if you have a single product on which you do not want a discount, then simply put 0%
5. In this example, you can see how you can specify exact discount amount for single product. The product in this example would cost under 5 EUR.
6. Every date textbox has the date picker
7. When you finish all changes, click on the Save Discount button
