de Catalunya

Engagement at UOC

"Public engagement describes the myriad of ways in which the activity and benefits of higher education and research can be shared with the public. Engagement is by definition a two-way process, involving interaction and listening, with the goal of generating mutual benefit."

NCCPE

Ultimate **goal**: to better connect the work of universities with society

How do we understand and promote engagement at UOC, a 100% online university?

Our roadmap for engagement

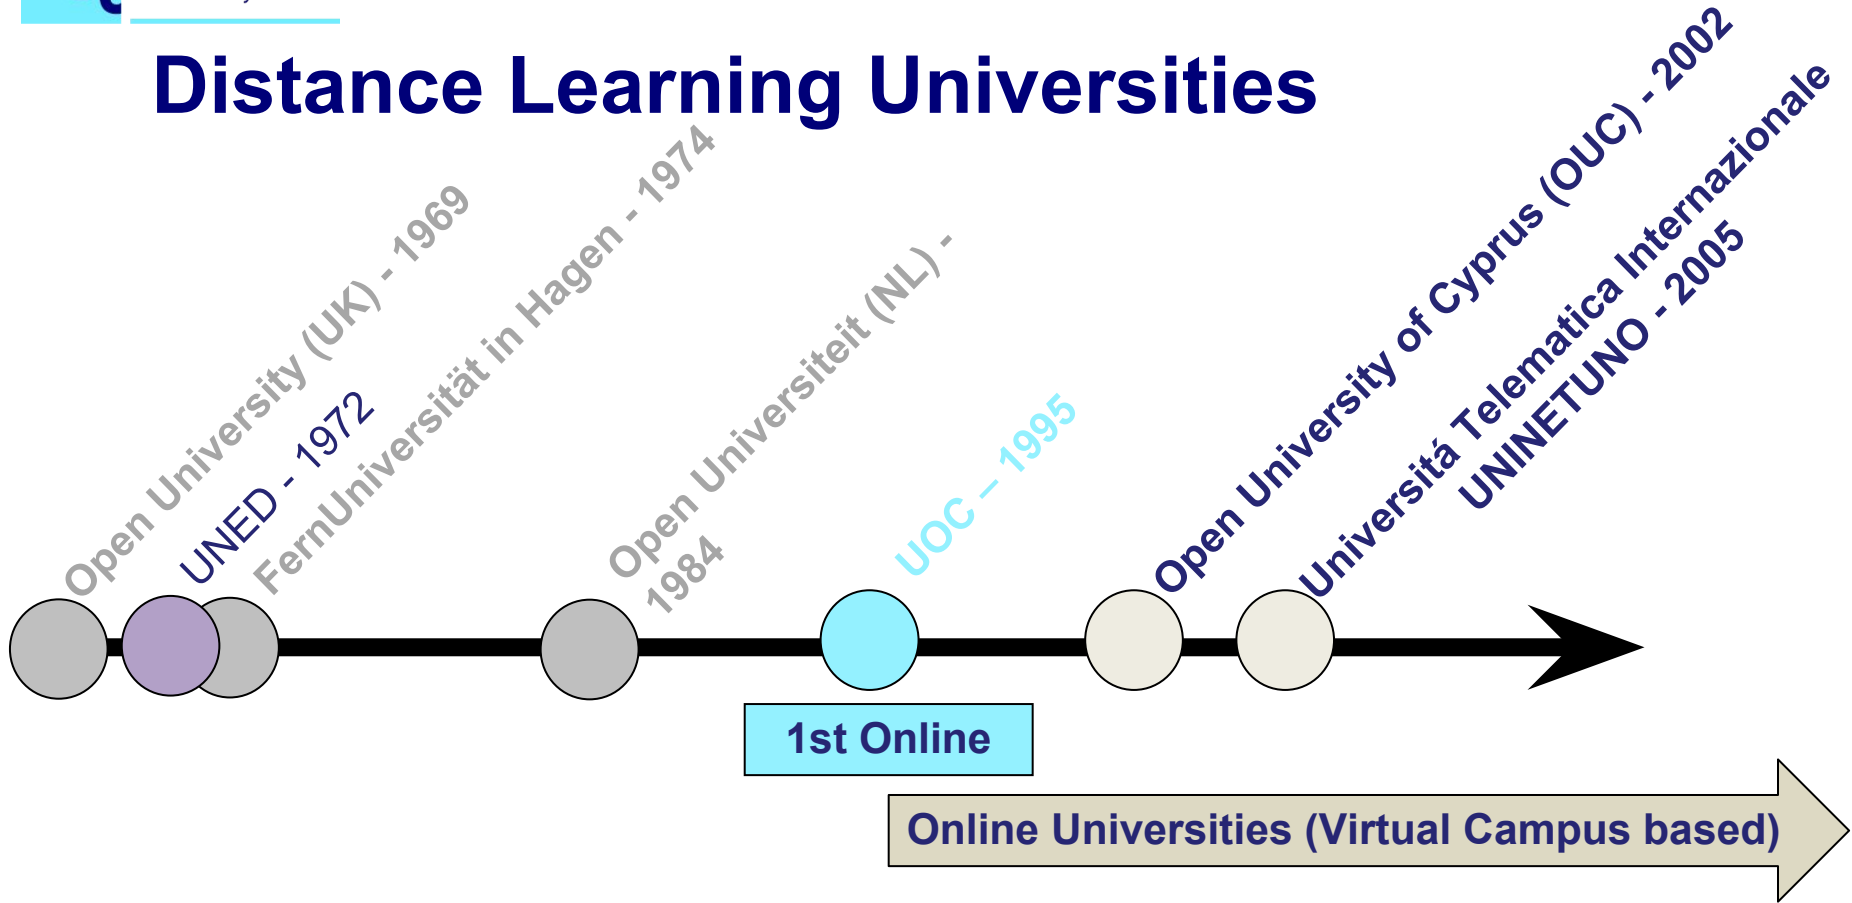

With special focus on SDG 4

Ensure **inclusive** and **equitable quality education** and promote **life-long learning** opportunities for all

Distance Learning Universities

The university in the digital society

UNIVERSITY

- Face-to-face sessions of 90 minutes
- The professor is at the centre
The professor transmits his/her knowledge to the students

Incremental evolution

Most on-line universities

- Audiovisual taping
- 60/90 minutes lectures
- Face-to-face sessions are rewarded
- The professor and the institution are at the centre (synchrony when decided)

Disruptive change

UOC 1995

Re-engineered University

- The students activity is central
- 100% asynchrony plus virtuality
- Teaching resources “industrialized” with a common pedagogic pattern (no art-craft from the professor)
- Virtual lecture-room plus accompaniment from tutor and collaborator professor
- Continuous evaluation

64,512 Graduates*

58,383 Students*

4,330 Teaching staff

615 Tutors

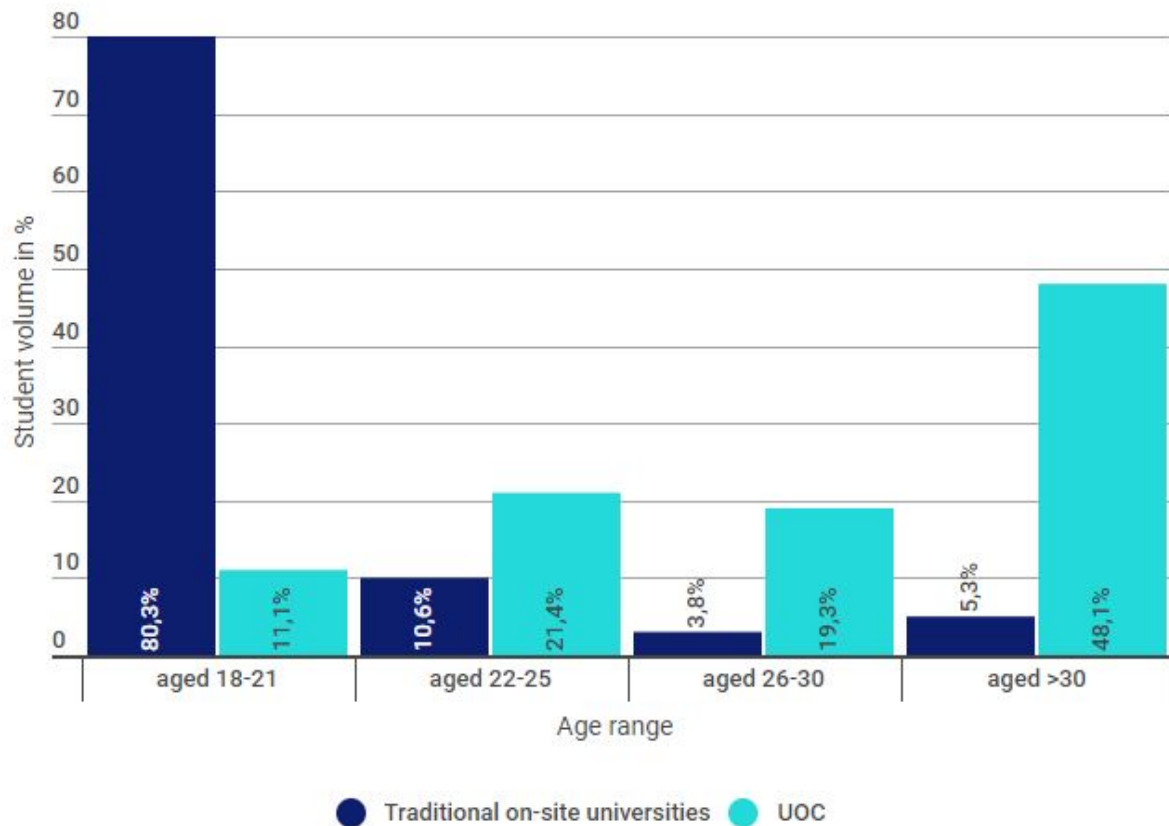

93%

study and have a job

61%

are aged 30 or over

New enrolments in the Catalan HE system

93% of the graduates would choose the UOC again

Profile of UOC's Graduates

Level of satisfaction

(On a scale from 1 to 5)

59.6%
women

40.4%
men

64,512
graduates

Where are they

Work

After they graduate...

wish to keep ties with the UOC

81%

are in touch with former classmates from the UOC

53.1%

They choose the UOC

allows them to manage their own time

48%

could study wherever they wanted

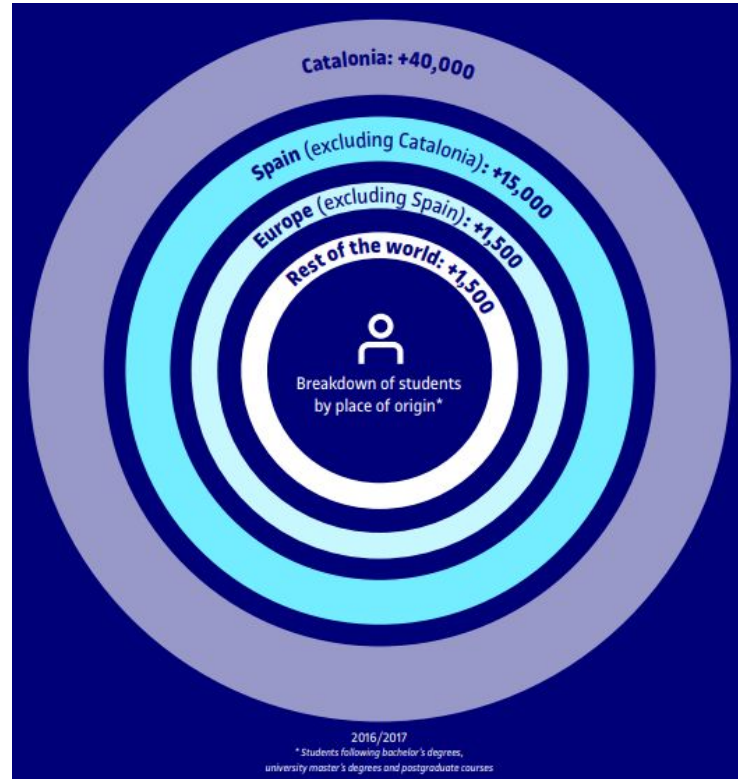

34%

Why do they study?

Data for the academic year 2016/2017

UOC students are based in 134 different countries

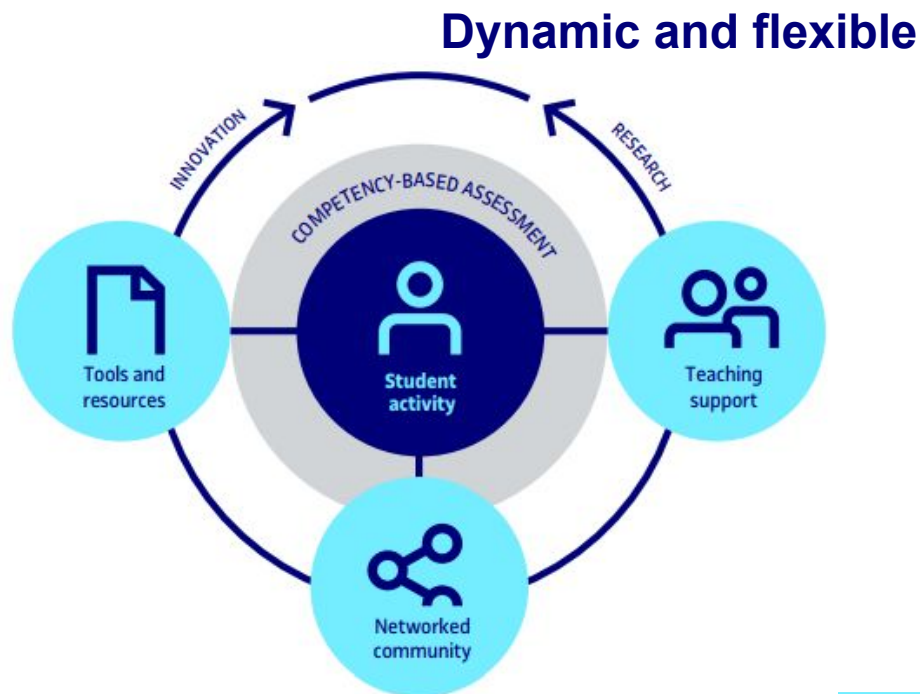

The Challenge

How to become a distance university without distance?

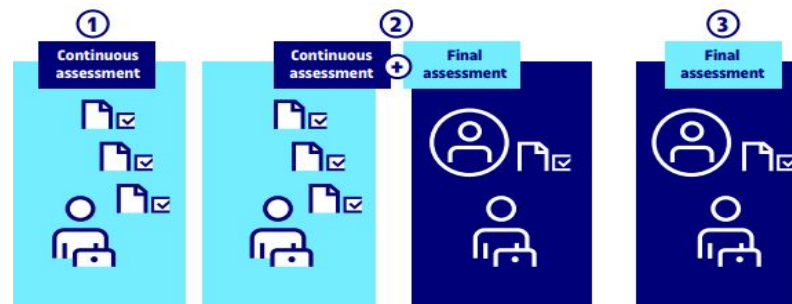

or

How to be a locally and globally engaged online university with social impact?

Engagement through a unique educational model

Continuous and Formative Assessment

Educational staff

Student Support

Engagement as a contribution to widening access & offering quality online education for all

4.3 - By 2030, ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, **including university.**

4.5 - By 2030, **eliminate gender disparities** in education and **ensure equal access** to all levels of education and vocational training **for the vulnerable.**

THE GLOBAL RISE IN UNIVERSITY STUDY

Gross tertiary enrolment ratio (%), world and world regions: 1971 to 2013

Source: Charts prepared by Simon Marginson using Unesco data

*Data for 1971-79 not available

- The **demand** for tertiary education is **increasing globally**
- OCDE estimates that in 2009 it was of 100 million people and by **2030 will be of 400 million people***
- In order to satisfy this demand by 2030 it will be necessary to create **2 universities for 20.000 students per day during the next 20 years**

- Forensic analysis
- Time stamping
- Face antispoofing
- Voice antispoofing

Promoting quality online education around the world

Educational
model

Technological
model

Organisational
model

UOC works together with higher education institutions, higher education ministries / governments and quality agencies, sharing the experience made at UOC and promoting quality online education around the world.

System level and personalised approach (no one-size fits all solution).

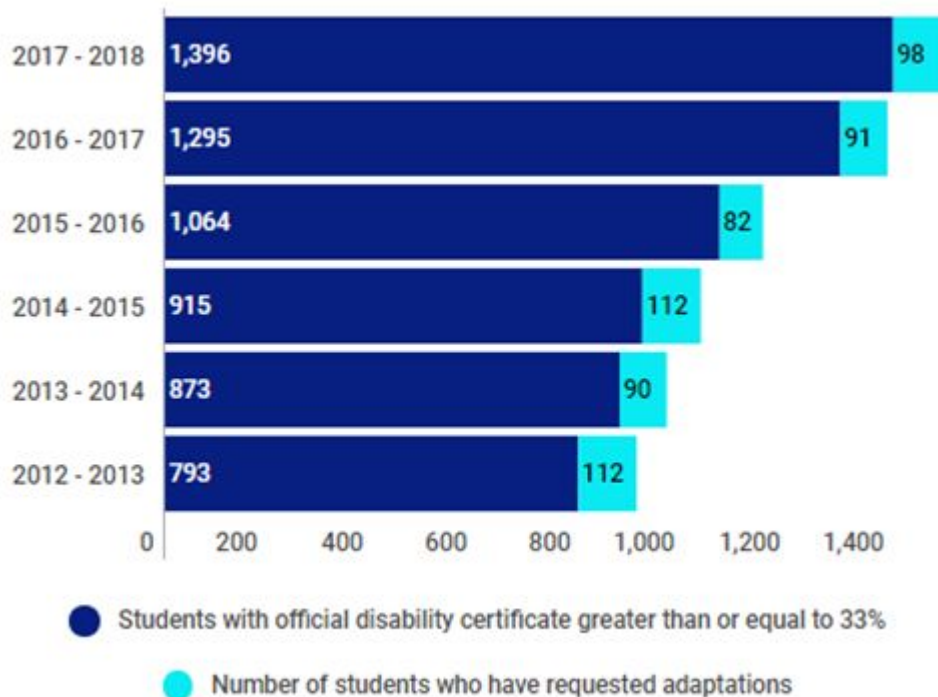

Latest collaboration experiences: Jordan, Chile, Colombia, Mexico and Ecuador

The UOC extends its e-learning model to the Middle East with a project in Jordan

Students with functional diversity at the UOC

The UOC is the Catalan university with the highest number of students with functional diversity

Scholarship programme for refugees

1st call in Feb 2017

- Language courses
- 25 students aged between 19 and 34
- From Syria and Afghanistan

2nd call in September 2017:

- Language courses and Postgraduate specializations
- 36 students aged between 19 and 50
- From Syria, Sahara and other 10 countries

3rd call in September 2018:

- Language courses, postgraduate specializations and open courses
- 27 students aged between 20 and 46
- From Venezuela, Honduras, Colombia, El Salvador and other 8 countries

Lebanon welcome programme

- Spanish courses
- 17 students aged between 21 and 47
- From Syria, Kurdistan, Pakistan and Palestine

Engagement through global competences

4.7 - By 2030 ensure all learners acquire knowledge and skills needed to promote sustainable development, including among others [...] global citizenship.

Joint Master degree in conflictology

Starting date: **2013**
More than **130 students**
from **69 countries**

UNOG Harnessing partnerships in the age of online education

Collaboration between experts and higher education institutions allows for knowledge sharing that offers students the best education possible.

CLAUDIA CROCI, MWIZA KALISA & ADAM KANE,
PEACEKEEPING TRAINING PROGRAMME, UNITAR

Over the past decade, advancements in science have created more technology dependent societies and significantly impacted the way teaching and learning

to traditional forms of education. Statistics show an impressive growth of online teaching and learning. A 2015 study of distance education in the United States

Virtual massive mobility programmes

The exchanged students study **one or more courses at UOC classrooms** while they continue studying the rest of their degree in their home University.

1st pilot in **Sep 2016**
700 students from
 Uniminuto (Colombia)

2nd pilots in **Sep 2017**

93 students UCC (Colombia)

83 students DUOC (Chile)

52 students UPCH (Peru)

Participatory final projects

Inspired in the idea of the Science Shops, UOC offers in a pilot project to its student the possibility of realizing their final project through participatory research that tries to give solutions to real world problems

Engagement through open knowledge

Open Knowledge Action Plan

- Open Access
- Open Data (FAIR)
- Open Educational Resources
- Open Innovation
- **Open to Society**
- Models of evaluation

Being a locally and globally engaged online University

- To contribute to the education of **global citizens** and **global professionals**
 - To enhance the **quality** of education and research
 - To make a meaningful contribution to **society**
-

Grateful for your
attention!

Uoc
