1. Presentation

A transformative university that adapts to the times

“Provide our students with the best resources, skills and knowledge so that they can reach their full potential as professionals, increase their employability and ensure their adaptation to the business world. This is the UOC’s mission.”

Accountability is a sign of the institution’s transparency to those outside and a normal activity. What’s more, internally, it allows for a necessary break from the day-to-day hustle to take time and go over what has been done. Likewise, it aids facing up to the challenges of the future while being fully aware. The importance of these factors is highlighted when, as is the case here, the Annual Report corresponds to the first full year of the new management team’s time in office.

When, nearly two years ago, we – my team and I – took on the challenge of leading the UOC, we had it clear that first and foremost we had to learn and listen. We had to soak ourselves in the reality and potential for teaching, technology and administration at an institution that has enjoyed almost twenty years of success and which, following our time in office, had to go on and improve on this. As one of the fathers of the European Union Jean Monnet said, “People come and go, but institutions remain; nothing is possible without men, but nothing lasts without institutions.”.

Once this initial period of diving deep was complete, we focused on developing a strategic plan that was able to guarantee the UOC’s future and viability, while preserving the identifying characteristics of the initial project (innovation, educational model, proximity, ubiquity, etc.). Now that this planning stage is complete, we are fully immersed in its application.

The following pages are, indeed, a detailed chronicle of the necessary, complex and, I believe, successful work undertaken in fields as diverse as research, internationalization, corporate responsibility or quality, because while all this was going on, the world kept turning. Over all these months, we have continued to provide a service to our students and society in general, overcoming the barriers of time and distance, being accessible from any platform and offering quality training and education. Because, at the end of the day, this is our fundamental aim: to provide our students with the best resources, skills and knowledge so that they can reach their full potential as professionals, increase their employability and ensure their adaptation to the business world. This is the UOC’s mission.

Josep A. Planell
UOC President
2. The course of the year

September 2013

TEACHING
The UOC, in association with the Barcelona City Council, offers a postgraduate diploma in Mobile App Development.

The UOC launches the new bachelor's degree in Anthropology and Human Evolution, offered in conjunction with the Universitat Rovira i Virgili.

AWARDS AND HONOURS
The President of the UOC, Josep A. Planell, receives the George Winter Award from the European Society for Biomaterials.

The President of the Research and Doctorate Scientific Committee, Manuel Castells, receives the international Balzan award for his contribution to the sciences and arts.

October 2013

INAUGURAL LECTURE
The inaugural lecture for the academic year is given by Jaume Pagès i Fita, managing director of Universia and former rector of the UPC, who speaks about the challenges and opportunities for universities in a global context.

AWARDS AND HONOURS
The Barcelona City Council awards the Ignasi Fina Prize for Occupational Health to the team behind the UOC's e-work initiative.

The Information and Communication Sciences Department is ranked among the top 50 departments in the world by iSchools.

OPEN KNOWLEDGE
The UOC promotes open access to knowledge at International Open Access Week, organized by the Scholarly Publishing and Academic Resources Coalition (SPARC).

ALUMNI
The UOC launches COTalent, a knowledge exchange and collaborative work platform.

cotalent.uoc.edu

AGREEMENTS
A new collaboration agreement is signed between the UOC and the Spanish Association of Information Technology Professionals (Asociación de Técnicos de informática, ATI) to strengthen the course offering in this field, coinciding with the second edition of the Crash Courses initiative.

November 2013

RESEARCH
The Catalan Government's Secretariat for Universities and Research (SUR) appoints the UOC as the lead institution of an analytical project on massive open online courses (MOOCs).

AWARDS AND HONOURS
The Hinnovar prize for innovation in hospital management is awarded to the team behind a project on congenital metabolic disorders, carried out by the Hospital Sant Joan de Déu, the UOC and the Centre for Biomedical Network Research on Rare Diseases (CIBERER).

Manuel Castells, President of the UOC Research and Doctorate Scientific Committee, is awarded an honorary doctorate by the University of Guadalajara (Mexico).
THE UNIVERSITY

The Executive Management Committee approves an agreement to promote social responsibility.

Social responsibility annual report

Pere Fabra is appointed as the UOC’s new Ombudsman.

December 2013

ACCESSIBILITY

A survey indicates that students with disabilities see the UOC as the most accessible university in Catalonia, posing the fewest barriers to their studies.

AGREEMENTS

Alliances with partners in Chile, Dubai, China and Australia are strengthened with the signing of new agreements for shared projects and double degrees, which consolidate the UOC’s international brand presence and expand its course catalogue.

LIBRARY

The UOC launches the redesigned Virtual Library, which provides a smoother user experience.

biblioteca.uoc.edu

RESEARCH

The UOC organizes the first International Research Symposium.

congress.uoc.edu/rdi2013

First International Research Symposium

A meeting of the UOC Research and Doctorate Scientific Committee is held.

STRATEGIC PLAN

The participatory process for the implementation of the UOC’s Strategic Plan identifies some 2,000 potential actions for the coming seven years.

January 2014

STUDENTS

A total of 33,500 UOC students sit the final examinations for the first semester of the 2013/2014 academic year.

ACADEMIC LIFE

The President, Josep A. Planell, attends the graduation ceremony for the 1,200 new UOC graduates in Mexico and signs agreements with the leading universities in the country.

The degree in East Asian studies reaches its tenth anniversary.

OPEN KNOWLEDGE

The UOC’s 4th Conference on Criminology addresses policies on the abandonment of criminal behaviour as an alternative model to rehabilitation.

PATENTS

The UOC applies for a patent to protect an audio watermarking system developed by the IN3’s KISON research group.

February 2014

The UOC organizes the 2nd Conference on the Online Legal Profession, addressing the potential use of social networks and new technologies as management and marketing tools for law firms.

March 2014

RESEARCH

The UOC leads a collaborative project in Jordan carried out with European university partners to develop quality standards for e-learning initiatives.

KNOWLEDGE TRANSFER

Open Evidence, the first UOC spin-off, is launched. The company specializes in consultancy services in a range of specialist areas, including e-health and e-administration, data analysis and behavioural economics.

www.open-evidence.com
STUDENTS
90% of UOC students pass their first semester examinations for the 2013/2014 academic year, placing overall student performance – the rate of success in terms of the total number of enrolments – at 70% for the same period.

April 2014

UOC GROUP
The University announces the creation of Oberta Publishing, the new institutional publishing firm responsible for transforming traditional teaching contents into innovative and entertaining learning formats.

www.obertapublishing.com

OPEN KNOWLEDGE
The UOC becomes the first European university to take on a dedicated Wikipedist, who is responsible for making the UOC’s open content available to the entire Wikipedia user community.

May 2014

TEACHING
The UOC continues to offer the international master’s degree in Conflictology, in conjunction with the UN.

ACADEMIC LIFE
A special ceremony is held to acknowledge the efforts of the outgoing president, Imma Tubella (2005–2012) and her management team.

INNOVATION
Alumni launches the UOC ON mobile app, creating an online community of students, teachers, management staff and graduates and facilitating digital contact with companies and wider society.

www.uoc.edu/uoc-on

June 2014

TEACHING
The UOC creates a new UNESCO Chair to promote research and development in the field of Food, Culture and Development.

RESEARCH
Eight innovative projects are introduced at the second Spin UOC meeting, an event consisting of short, creative presentations on transferable projects carried out at the UOC.

www.uoc.edu/rdi/spin
July 2014

THE UNIVERSITY

The new Board of Trustees is formed. The chairman is Andreu Mas-Colell, the Catalan Minister for Economy and Knowledge, and the majority of trustees are now drawn from private organizations.

AWARDS AND HONOURS

The Catalan Ministry of Economy and Knowledge awards the Jaume Vicens Vives prize for quality in university education to Joseph Hopkins, a teacher at the UOC’s School of Languages.

RESEARCH

A joint study carried out by the UOC and EADA Business School reports on excellent employment figures among recent graduates in Business Administration and Management. The study is selected as best paper at the BAFA SIG Education Conference at Bristol University, UK.

The Catalan Ministry of Economy and Competitiveness approves the allocation of 300,000 euros to four research, development and innovation projects at the UOC.

August 2014

ACCESSIBILITY

The UOC consolidates its reputation as a highly accessible online university and caters for more students with special educational needs than any other Spanish university, with 793 new enrolments for the 2012-2013 academic year.

INNOVATION

The UOC launches Timeline, a series of innovative television programmes designed to improve students’ digital skills and ability to work in online environments.

OPEN KNOWLEDGE

Movistar and Barcelona Mobile World Capital organize a joint session with the UOC on Cinephone Maker, the first major mobile video event in Spain.

A joint study carried out by the UOC and EADA Business School, published in the journal RUSC, reports on excellent employment figures among recent graduates in Business Administration and Management.

AGREEMENTS

The UOC and the Catalan Ministry of Education agree on measures to promote the use of ICTs in teaching and learning and sign a training and research agreement with the Institut Obert de Catalunya.

Rankings of the University’s websites

Webometrics is an international ranking drawn up by the Spanish National Research Council (CSIC) of the websites of 20,000 universities. The ranking is based on four indicators: the size of the website (the number of pages that it hosts), visibility (the number of external links to a university’s website), the number of rich files and Google Scholar.

4. Quality

Design and roll-out of EHEA qualifications

The UOC has increased the number of university master’s degree courses for the academic year 2013/2014 to add to its consolidated range of EHEA qualifications:

> Learning Difficulties and Language Disorders
> Electronic Administration and Governance
> Chinese and Japanese Studies: Contemporary World
> Catalan Studies
> Medical Social Work
> Information and Communication Management and Strategies
> Digital Empowerment

The University also participates in the following interuniversity programmes:

> Contemporary History and Today’s World, coordinated by the University of Barcelona
> Computer Vision, coordinated by the Universitat Autònoma de Barcelona
> Computational Engineering, coordinated by the Universitat Rovira i Virgili
> Teacher Training – Secondary Education, Language Teaching and Vocational Training, coordinated by the Universitat Autònoma de Barcelona
> Bachelor’s Degree in Anthropology and Human Evolution, coordinated by the Universitat Rovira i Virgili

Accredited faculty

> 79% of UOC faculty have a doctoral degree
> 74% of UOC faculty with a doctoral degree are accredited by the university system
> 60% of UOC faculty have been favourably assessed for teaching
> 31% of UOC faculty have been favourably assessed for research

The UOC also coordinates the following joint master’s degrees:

> Ancient Mediterranean, with the Universitat Autònoma de Barcelona
> Telecommunications Engineering, with the Universitat Ramon Llull

With these new courses, the UOC offers a total of 16 bachelor’s degrees and 32 university master’s degrees for the academic year 2013/2014.
5. Research, transfer and innovation

Cutting-edge research

Research, innovation and transfer activity at the UOC is carried out by some 400 researchers organized into 46 groups. Each group is affiliated to one of the University’s seven departments or teaching areas or to one of the two research centres (the Internet Interdisciplinary Institute and eLearn Center). Of these 46 groups, 26 were officially recognized by the Catalan Government in the latest accreditation period, in May 2014.

The volume of scientific output and transfer activities has risen in recent years, following major efforts to increase the participation of teaching and research staff and thanks to the invaluable assistance of the UOC Knowledge Transfer and Research Support Office.

One highlighted fact is the foundation of the first UOC spin-off, Open Evidence (www.open-evidence.com), specialized in consulting on health, welfare, consumption, innovation and public policy.

Scientific output at the UOC

> 21 Books
> 164 Book chapters
> 335 Conference presentations
> 22 Scientific-technical documents
> 169 Scientific articles
> 10 Theses

Figures correct on 31 December 2013

The Government of Catalonia recognizes 26 UOC research groups.
Committees

There are four UOC committees overseen by the Office of the Vice President for Research and Innovation, addressing research, innovation, knowledge transfer and research ethics, respectively. Each committee oversees a variety of actions and initiatives, which in 2013/2014 included the following:

**Research Committee**

The academic year 2013/2014 saw the passing of regulations on the structure and operations of the UOC’s research groups, activities to publicise the results of the research, development, innovation and transfer at the UOC: the Open Thoughts blog, the second holding of SpinUOC (the UOC’s knowledge transfer event) and the First UOC International Research, which represented an opportunity to witness first-hand the research and innovation activities carried out at the University.

**Innovation Committee**

Over the course of the 2013/2014 academic year, the new management team established the UOC’s strategy and structure for innovation. The ‘Val-ID’ INNOVA project, for the development of an authentication system for online assessments, was also launched.

**Publications Committee**

The Publications Committee continued to implement the agreements established in the 2012/2013 academic year and presented its reports on the implementation of quality plans for the UOC’s scientific journals.

**Ethics Committee**

The Ethics Committee manages the administrative processes linked to the development of research projects and publication of results and the necessary concern for ethics in these processes. It monitors current procedures, assesses their compliance with ethical requirements, and issues its approval where appropriate.

---

**Research institutes**

**eLearn Center (eLC)**
elearncenter.uoc.edu

The eLearn Center carries out a range of activities in the field of e-learning for UOC teaching staff and management staff, including experimental work, innovation initiatives, training programmes and applied research. It works to address the ongoing development and continued excellence of teaching and technology in the UOC’s educational model.

**Educational model, innovation and applied research**

The eLearn Center structures its activities in three distinct, complementary areas: educational model, innovation and applied research. It also encompasses two specialized structures that provide the foundations for its work: the Education and ICTs (e-learning) programme, and the Experimentation Laboratory. Activities and programmes carried out over the course of the year included:

> The doctoral programme on Education and ICTs (e-learning) (until January 2014)

> National and international research projects

> eLC Research Fellows Programme

> Research management and promotion

> Predoctoral and postdoctoral research placements

> Seminars and conferences

> International visits

Director of the eLC: Albert Sangrà (until January 2014), Christine Appel.
Internet Interdisciplinary Institute (IN3)  
in3.uoc.edu

The IN3 aims to create and consolidate networks for collaborative research and knowledge exchange between members of the research community, overseeing a range of activities including:

- Call for applications for staff researcher positions
- Calls for applications for visiting professor positions
- Call for applications for postdoctoral research fellowships
- Publication of the Working Papers series
- Organization of research seminars, workshops and international conferences

The Institute maintains an active presence in social networks (Twitter: @in3_uoc) and publishes a monthly newsletter on the activities it organizes.

Director of the IN3: Dr. Josep Lladós.

UOC Scientific Research Committee (2013-2020)

Manuel Castells (chair)

Martin Carnoy, William Dutton, Jerry Feldman, Jordi Gali, Brenda Gourley, Dame Wendy Hall, Miguel Ángel Lagunas, Helga Nowotny, John Thompson, Michel Wieviorka and Rosalind Williams.

Knowledge Transfer and Research Support Office

The Knowledge Transfer and Research Support Office (OSRT) responds to the needs of the professionals involved in the University’s research, development and innovation activities. It is responsible for disseminating the results of the R&D activities via publications, courses, seminars, web platforms and 2.0 channels (social networks and blogs), among others. It also represents the UOC in national and international R&D networks.

The most prominent projects and actions during the 2013/2014 academic year were as follows:

Knowledge transfer

Spin UOC 2014

The general goal of the second edition was to build a network of contacts between the teams behind innovative projects and initiatives at the UOC and the social and commercial fabric of the surrounding area and region. Eight innovative projects carried out by UOC researchers and students were presented to companies and institutions, with a view to reaching agreements to adapt the technologies for their own purposes.

Second patent

In the second semester of 2013, the UOC made its second patent request to the Spanish Patent and Trademark Office. The patent was requested for a real-time audio watermarking system developed for small mobile devices.

Commercialization of UOC results

Over the 2013/2014 academic year several new projects for the commercialization of UOC products and services were analysed. These joined the eight projects begun in the previous year in the University’s valorization portfolio. Three of these projects are currently in the commercialization phase (eLearn Court, Lab@home and Speakapps) and three are in the results protection phase.

Research dissemination

First UOC International Research Symposium

The symposium is an opportunity to see first-hand the range of research and innovation activities carried out at the UOC; 162 research and innovation projects were presented, and a general discussion on the future of the university was held.

Open Thoughts blogs

This family of blogs was set up to share and discuss the views of national and international experts on topics suggested by the research community. The third blog in the series was launched in the first term of 2013 (w.uoc.edu/openthoughts).

“Thursday with the OSRT” talks

Each month the OSRT organizes a talk on a specific aspect of research, development and innovation activity: innovation, the European Horizon 2020 programme, faculty and research staff evaluations, dissemination and assessment of research, development and innovation activities, and tools to stimulate creative thinking.
6. The UOC internationally

Presence in international networks

Over the course of the 2013/2014 academic year, the UOC was actively involved in the work of various international networks, contributing to plenary sessions, talks and presentations, setting up stands at major events, and hosting international conferences for associations such as the EAIE, EFQUEL, IMHE-OECD, EDEN and Online Educa Berlin. The UOC’s standing commitment to internationalization was reflected in a series of institutional visits to European and Latin American universities and to international organizations including AUF, UNESCO, IMHE-OECD, FAO and UNITAR. The updated list of networks to which the UOC belongs can be consulted online. http://w.uoc.edu/international/networks

> Xarxa Vives
International agreements signed

The UOC strengthened its international ties with the signing of collaboration agreements for teacher training, research, the organization of joint courses of study and double degrees, and mobility initiatives for students, teaching staff and management staff with universities and government organizations. The UOC had 152 active agreements for the 2013/2014 academic year, 33 of which were new. Major agreements included:

**UNITAR**

**United Nations Institute for Training and Research**

An agreement under which UNITAR students can complete their education at the UOC, leading to the award of the master’s degree in Conflictology.

**UNDP**

**United Nations Development Programme**

Renewal of the agreement to collaborate in various UNDP projects.

**INACAP**

**Technological University of Chile**

Signing of an agreement for the organization of two master’s degrees in the fields of economics and IT management.

**UNAM**

**Autonomous University of Mexico**

Renewal of a contract with the largest university in Mexico to offer a range of postgraduate programmes in City and Urban Planning.

Internationalization programmes

**‘Internationalization at Home’ programme**

During the 2013/2014 academic programme, the UOC renewed its agreement with the La Caixa Foundation to support the “Internationalization at Home” programme, which oversees academic activities and information sessions delivered by professors, researchers and international experts.

**Erasmus**

The Erasmus programme offers UOC staff the chance to complete academic and teaching placements at universities outside Spain. For its part, the Study Trip programme aims to increase knowledge transfer between UOC management staff and their counterparts at foreign universities.

This major EU initiative also has a specific strand for student exchanges. Under the programme, students complete a four-month study placement at a foreign university. In the 2013/2014 academic year, seven UOC students were awarded an Erasmus study grant and one student received a placement grant. Similarly, three international students (two Italians and an Iranian living in Turkey) requested placements at the UOC.

| 152 | existing agreements |
7. Strategic plan  2014-2020

The President and his management team have defined the following priority objectives: internationalization as a model for expansion; a focus on the search for external funding; and budgetary stability (given the ongoing economic crisis). These objectives are pursued following a series of defined strategies.

The first period of the new term of office was used to lay the foundations of the Strategic Plan that will provide the route map for the institution over the next seven years.

---

**Strategic pillars and aims**

**01. A multidisciplinary and flexible approach**

The University pursues various strategies to address individual student requirements, based around personalized and multidisciplinary curricular pathways and permanent access to UOC services.

This core area can be broken down into the following specific objectives:

1. To create a learning environment that offers students an intellectually stimulating, socially transformative and inclusive educational experience.
2. To provide high-quality, multidisciplinary education and personalized curricular pathways, giving students the greatest possible chance to surpass their personal and professional expectations.
3. To provide suitable technology to ensure uninterrupted access to learning and support spaces.

**02. Collaborative governance with common goals**

The University pursues various governance strategies to strengthen collaborative work and decision-making in achieving institutional goals.

This core area can be broken down into the following specific objectives:

1. To create a working environment founded on trust, distributed leadership, institutional commitment, consideration for professional expectations and recognition of achievements, striving to attract and retain talented individuals.
2. To place a central focus on the student learning experience in all areas of the UOC’s academic and management structures.
3. To implement a leadership model based on independence and accountability, participation and discussion, and transparency in procedures and decision-making.
4. To incorporate a concern for the institution’s economic sustainability into decision-making criteria.
The Strategic Plan for 2014-2020 sets out a series of objectives in the following core areas: a multidisciplinary and flexible approach, collaborative governance, internationalization, competitiveness, employability and excellence in research.

03. Firm commitment to internationalization
The UOC implements a number of strategies to bolster its international reputation, to facilitate access to higher education around the world, and to consolidate the marked international profile of the UOC community.

This core area can be broken down into the following specific objectives:

1. To establish the UOC as one of the world’s leading distance universities and to improve its performance in general rankings.
2. To attract a significant number of new students from outside Catalonia, through an extensive offer of UOC-specific courses (including in-company training), joint programmes and double degrees.
3. To broaden the international and intercultural skills of UOC staff and contributors.
4. To add an international and intercultural dimension to course curricula, enabling students to acquire the associated skills and competences regardless of their geographical location and language of study.

04. Increasing competitiveness and employability
The University pursues various strategies to increase its competitiveness as an institution and to create a dynamic environment in which its students can share experiences and develop entrepreneurial ideas.

This core area can be broken down into the following specific objectives:

1. To build a reputation for responding to the needs of society and for providing an active learning experience focused on a changing labour market and the importance of cross-disciplinary skills and competences in all knowledge areas.
2. To increase awareness of the social benefits of the University’s activity, as part of a wider effort to foster a culture of philanthropy.
3. To encourage the greatest possible interaction between members of the UOC community (students, lecturers, management staff, researchers, external teaching staff, alumni, and associated companies and institutions) to form a dynamic network that generates tangible benefits for the University and for wider society.

05. Promoting excellence in research
The University pursues various strategies to ensure excellence in research and to strengthen its transfer activities.

This core area can be broken down into the following specific objectives:

1. To gain international renown for cutting-edge research on the knowledge society and for excellence in translational research into all aspects of e-learning.
2. To increase the output of top-level research by the UOC community and to establish a knowledge dissemination and transfer strategy for all University activities.
3. To provide doctoral training that builds on quality research across the UOC’s various knowledge areas and prepares students for the rigours of academic and professional careers.
