

# EFQUEL Innovation Forum 2013

Cibernàrium

**September 2013**

A clear and strong commitment of UOC regarding quality in online education (e-learning). All our programmes are fully accredited by the competent bodies.

The fact UOC is one of the EFQUEL founding members.

Innovation is a “compulsory seal” for any university born in the Network Society. Innovations should have to be linked to serious development, always thinking on the students’ learning benefit.

**«Open Education trends are providing new challenges, but also new opportunities to innovate in education, keeping in mind the final aim: make people learn as well as possible. These new formats are also challenging quality that should be revised and improved.»**

UOC is proud of providing the opportunity of holding this Innovation Forum in Barcelona.
